

LITTLE CONKERS PRE-SCHOOL

HAVING FUN, LEARNING THROUGH PLAY

The best learning takes place when children have time to play, explore, experiment, have a go, keep trying, find ways to do things, meet challenges and solve problems.

We provide stimulating indoor and outdoor spaces for our children to encourage them to experience and investigate a wide range of materials.

We spend a lot of time outdoors as we believe the natural world is important in developing our all round wellbeing.

We value each child as a unique and precious individual. Through observation, interaction and teaching, we aim to grow happy, confident and independent little learners.

We spot teaching opportunities "in the moment", which may include support to extend vocabulary, practice a skill, persevere, build relationships, find out about an insect - endless teachable moments every day!

We spend time getting to know each of our children.

We engage and interact with them in their play to develop and move forward their learning. Each child's progress and development are closely monitored and individual next steps are carefully planned.

We follow the requirements and curriculum set out in The Early Years Foundation Stage Statutory Framework (EYFS) and ensure the children have a broad range of experiences across the seven areas of learning and development.
